The Marvin® Lift Lock is the next innovation in function, design, and aesthetics for the Marvin Ultimate Single Hung Next Generation Window. Moving the location of the lock from the check rail to the lower part of the sash solves an age-old problem of lock accessibility. Now, operating your window is easier than ever; the Lift Lock unlocks and acts as a handle for raising and lowering the bottom sash. To lock, simply close the bottom sash. The operation of the window works well even with limited hand dexterity or range of motion. With the Lift Lock, features of the Marvin Ultimate Single Hung Next Generation are maintained including expansive sizes up to 5 feet wide by 10 feet high and superior weather performance with LC-PG50 on most sizes, and optional CW-PG50 and IZ3 coastal performance available making the Lift Lock a perfect solution for residential and commercial projects alike.*

FEATURES AND BENEFITS

- Available with contemporary and traditional styles to complement a range of designs
- Available in 10 standard finishes including Satin Taupe, White, Brass, Matte Black, Bronze, Oil Rubbed Bronze, Antique Brass, Satin Nickel, Satin Chrome, and Polished Chrome
- The Marvin Lift Lock maintains the performance rating of the Marvin Ultimate Single Hung Next Generation including the stringent requirements for commercial performance (CW) and Coastal performance (IZ3) in coastal regions
- The Marvin Lift Lock is compatible with the Lock Status Sensor, providing added peace of mind
- Designed with you in mind, the Marvin Lift Lock puts the unlock mechanism within reach for windows behind counters or checkrails above reach, making this an ideal solution for residential and commercial solutions alike
- Pair Lift Lock hardware with the commercial performance class option for AAMA 902 voluntary specification class 5 sash balances, ideal for universal design projects
- No visual disruptions at the check rail means clearer views to what's beyond your window
- Available with one centered lock, or two spaced locks for larger windows
